

**SEC NIGERIA ICT TRANSFORMATION - DEVELOPMENT OF ICT TRANSFORMATION STRATEGY BID  
CLARIFICATION QUERIES**

No.	Question	Responses
1.	Could you please clarify if <u>International consultancy firms and consortia of individual consultants</u> are eligible for bidding for the above opportunity ?	Yes, International consultancy firms and consortia of individuals are eligible to apply. All proposals received will be evaluated based on the criteria outlined in the TOR.
2.	The proposed fee schedule asks us to report our price in USD/GBP. Will the payment for the project also be in USD/GBP or would it be in Nigerian currency (Naira)?	Yes, the payment for the project will be in USD/GBP.
3.	Do we have a format to put in a Technical Proposal? Or bidders are expected to come up with theirs.	Bidders are expected to come up with the format for their technical proposal in line with section 6 of the ToR.
4.	I would like to know if the above includes telephone systems like IP? If so, should i send a proposal for a new transformative/innovative system? Also,i wanted to know if i can do this job remotely since i can send items there and then from there i do remote configuration and support.	<p>The main output of the consultancy is a Digital/ICT Transformation Strategy. The strategy is expected to be sufficiently comprehensive to cover all the ICT business needs and functionalities of SEC Nigeria. Remote configuration or related support may not be required under this assignment.</p> <p>The assignment can be undertaken remotely provided the consultant has a stakeholder engagement strategy to ensure all relevant stakeholders are engaged and that the resulting ICT Transformation Strategy takes into account their feedback and is reflective of their expectations.</p>
