Questions	Response
I would like to clarify the possibility of a consulting firm making an application for the role of Climate Finance Adviser to Lagos State Government. In operational capacity, a team member or two are deployed to perform the functions of the role with no requirement to pay for an added resource.	Consulting firms are welcome to apply. However, we emphasise the need for the Adviser's continuous and substantial in-person presence at LASG offices and the need to develop and leverage relationships across LASG departments, initiate and coordinate cross-departmental work and provide capacity building.
